Enterprise App Manager

APP CATALOG, DISTRIBUTION, LICENSE MGMT

Driven by the growth of enterprise tablets and cloud computing applications, the Enterprise App Manager for corporate IT allows an enterprise company to control the licensing, distribution and management of approved applications to end-users more effectively. Designed for the new generation of tablet computers, smart devices and cloud computing platforms, the Enterprise App Manager is a way to ensure corporate policies and procedures are met while giving employees the user friendly experience commonly found in consumer style app stores.

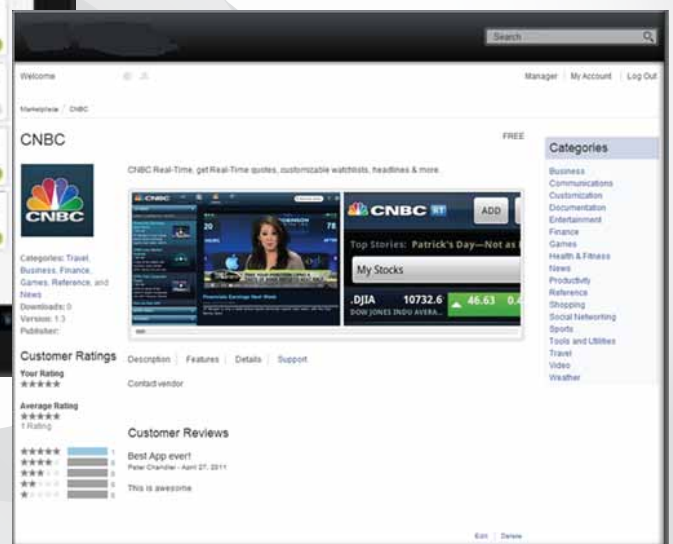

Feeling pressure from end-users? It can be difficult to stay current and in control of the myriad of end-user devices and applications. The Enterprise App Manager is a way to manage user recommended apps while

Benefits:

- CONSUMER STYLE EXPERIENCE INCREASES EASE-OF-USE AND USER SATISFACTION
- CENTRALLY CONTROLLED APPROVAL & DISTRIBUTION ENSURES COMPLIANCE
- LICENSE MANAGEMENT WITH REMOTE INSTALL/UNINSTALL REDUCES IT SUPPORT COSTS
